

GWeasy.GravfetchApp.run  
\_gravfetch\_script

GWeasy.GravfetchApp.toggle  
\_execution

GWeasy.GravfetchApp.append  
\_output

```
graph LR; A[GWeasy.GravfetchApp.run_gravfetch_script] --> C[GWeasy.GravfetchApp.append_output]; B[GWeasy.GravfetchApp.toggle_execution] --> C; C --> C;
```

The diagram illustrates the flow of control and data between three methods of the GWeasy.GravfetchApp class. Two methods, run\_gravfetch\_script and toggle\_execution, are shown in white boxes on the left. Both have blue arrows pointing to the append\_output method, which is shown in a gray box on the right. Additionally, a blue curved arrow points from the append\_output method back to itself, indicating a self-call or a loop.
